Dear Sir:-

The statistical report you refer to in your letter of Jan. 16th was mailed a few days ago. We regret that this report was not in your hands prior to the required date as there was no reason for the delay except that it was overlooked. We believe the blanks for this purpose were handed in to the canneries by your representatives in Alaska and were perhaps pigeon-holed there, while heretofore the receipt of such blanks in the mail served as our annual reminder.

We are also in receipt of the Pacific Coast salmon pack report for 1922 for which we thank you.

Yours very truly,

Alaska Sea Food Co.,
